AWAL IPv6 Design overview

AWAL IPv6 Design overview

AWAL have tested IPv6 with STC on 2007 for connectivity, BGP peering, DNS resolving and local website browsing.

AWAL Core Network is IPv6 enabled, and we already have connected customers with their own IPv6 prefixes advertised via AWAL IPv6 gateway.

Testing Environment.

- **WiFi via ADSL network:**
 - Totally IPv6 network
 - SSID : [AWAL-IPv6](#)
 - Password: [12345678](#)
- **Contact:**
 - Please do not hesitate to contact us on ipv6@awal.com.sa for any inquiry regarding IPv6.
- **Website:**
 - Ipv6.awal.com.sa

Thank you
